

# VITRO S1

Taking care of every last detail

**VITRO S1** is the perfect combination of compact design, functionality and top-quality components.

With its integrated water tank and compact design, it fits into any coffee area in small offices, hotels and convenience stores with a consumption of up to 80 cups per day. Designed to provide the best coffee experience from the first to the last cup.

#### Easy-access hoppers

A 1.2 kg coffee bean hopper and two hoppers for chocolate, milk powder or other soluble ingredients. Product can be directly and easily loaded from the top without opening the door.

#### 4 litre water tank

For greater flexibility in locations with low consumption and no access to mains water. Mains water connection kit available for greater autonomy.

#### Easy emptying and cleaning of waste

The waste drawer has a capacity of up to 50 coffees and the liquid tray has a capacity of 1.2 litres. Its design allows for easy emptying and cleaning in the dishwasher.

#### Direct touchpad

The 8-selection touchpad offers a wide variety of high-quality coffees at the touch of a button.

## MIA FreshMilk

The innovative MIA (micro air injection) milk technology produces a consistent, velvety foam. If fresh milk runs out during operation, the system can automatically switch to powdered milk to ensure uninterrupted service.

## Accessories adapted to your business model

With a wide range of accessories, the VITRO S1 can be adapted to suit any business model, with different payment modules, stands and coolers available to complement the machine.

## Larger distribution volume

Depending on the customer's preferences and requirements, it is possible to equip the machine with the AZK V20 dispensing unit for larger beverage volumes.

## Lockable hoppers

The hoppers can be equipped with an additional locking device to secure access to the containers and prevent unauthorised opening.
